

SPECIAL INSTALLATION INSTRUCTIONS AR 9mm BUFFER

ASSEMBLING-DISASSEMBLING TOOL

Use always the Tool in the process of assembling and disassembling of the DPM Buffer System (Fig. 1, 2).

This Tool keep the Axle 1 in higher position so it makes easier the compression of the Rubber Head and the placement of the Stopper and the Safety Pin.

Fig. 1

Fig. 2

Follow the **General INSTALLATION INSTRUCTIONS** to exchange the Absorbing Spring or the counterweight.

ATTENTION: You have to remove this Tool when you install the DPM Buffer System in the Rifle (Fig. 3, 4).
